📝 SUMMARY

Skilled front-end developer with experience in creating responsive web solutions using HTML, CSS, JavaScript. Passionate about user-friendly and accessible designs. Proficient in Git and other version control tools. My portfolio can be found on Github and my website.

🧠 SKILLS

- **Languages:** JavaScript, HTML, CSS, SASS
- **Libraries & Framework:** Bootstrap, Tailwind, Node.js. React.js
- **Other:** Git, REST APIs, MySQL, Adobe CC

💼 EXPERIENCE

Travel Booking - Flobnb, flobnb.netlify.app 🔗

- Created a travel website that allows users to book vacation rental homes for multiple destinations and display arcuate pricing.
- Automated cart items to storage user data into local storage, this minimized response time upon the next reload by an average of 5%.
- Implemented cart functionally with add, remove and clear cart, that made the user experience easier and pleasant.

E-commerce - Beats by Dre, beatspro.netlify.app 🔗

- Developed an online store to sell Beats headphone with react router to navigate the site, this provides an efficient user experience.
- Created from scratch react components *(navbar, footer & banner),* this made the code reusable throughout the entire project and decrease the size of the project.

App - Weather channel, weatherchannelapp.netlify.app 🔗

- Design and developed a web app using data from a third party api. This allows real time update as the data is dynamically added to the app.
- Created conditional statements to display weather conditions at a glance, proving better user engagement and faster media consumption

🎓 EDUCATION

Fitchburg State University   Dec 2014 - Fitchburg, MA

Bachelor of Communications Media
